

Veeam Cloud Connect

Fast, secure cloud-based backup and replication

Challenge

Even a few moments of downtime can have a significant impact. It's critical that you can maintain business continuity and remain resilient.

Master the 3-2-1-1-0 Rule without investing money and resources into a second site or adding bandwidth. Veeam® Cloud Connect offers fast and secure backup and recovery for data centers, endpoints and the cloud, all from a single web-based console. Getting started is as simple as selecting a service provider from our global network of partners and pointing your backup or replica jobs to the cloud.

- Stay safe from ransomware**
- Save on infrastructure and licensing costs**
- Meet low recovery point objectives (RPOs)**
- Send backups off site to a Veeam partner**

Key capabilities

Natively integrated into Veeam Data Platform

- Easily send backup and replica jobs offsite to a service provider in just a few clicks
- No additional licensing requirements for Veeam Data Platform customers

Securely designed

- End-to-end encryption protects data at the source and in-flight through a secure SSL/TLS connection and at rest
- Protect backup data from intentional or accidental deletion with insider protection services

Execute a hybrid strategy with Off-site Backup

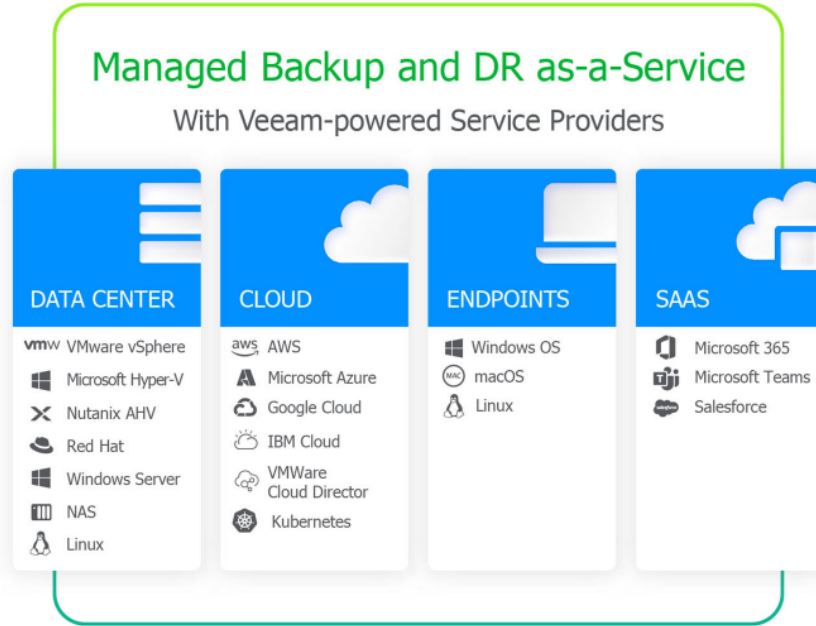

- Easily store backups off site for retention, secure recovery and more by leveraging a service provider's cloud
- Quickly get started without needing to build out additional backup infrastructure

Maintain business continuity with DRaaS

- Achieve full- or partial-site failover to a remote disaster recovery (DR) site from any location through a secure web portal
- Meet the most stringent recovery objectives ranging from minutes to seconds with Continuous Data Protection (CDP)

Protected workloads
